

BRIDGET MULLEN

Miami, Florida, 305 333-2203, bra026@g.harvard.edu

TECHNICAL SKILLS

Python, SQL, Data Visualization, Pandas, Keras, TensorFlow, PyTorch, Machine Learning, Computer Vision, Exploratory Data Analysis, Data Cleaning, Excel, Power Bi, Tableau, Neural Networks, Statistical Analysis, Time Series Analysis, Dynamic Programming, Q-Learning, Research, EDA, Predictive analysis, Unsupervised Learning, NLP, Graph Networks, Streamlit, Data Mining, qGIS, Remote Sensing,

EDUCATION

HARVARD UNIVERSITY, BOSTON, MA

EXPECTED GRADUATION 2026

MLA Extension Studies: Data Science

MITX, BOSTON, MA

Micro-Masters in Statistics and Data Science

BARNARD COLLEGE, COLUMBIA UNIVERSITY, NEW YORK, NY.

BA, Mathematics and Visual Arts.

EXPERIENCE

FACULTY AIDE RESEARCHER, HARVARD, BOSTON, MA

2025-

PRESENT

- Mined the Harvard Art Museum Database for bias in collection and exhibition trends using data analysis and ML
- Developed a dynamic search for the HAM object database using AI-generated annotations and image vectorization.
- Analyzed HAM images using multimodal LLMs to uncover bias in computer vision and generation.

TEACHING ASSISTANT, HARVARD, BOSTON, MA

2025-

PRESENT

- Course : MUSE 131 Museum Informatics: Leveraging Information to Make Data-Driven Decisions
- Created content and gave lectures based on topics including APIs, data analysis in excel, AI in museum studies, computer vision, multimodal LLMs, detecting bias, and more.

DATA SCIENCE CONSULTANT, SENTIENT, MIAMI, FL

2024-

PRESENT

- Researched and developed biometric-based metrics to evaluate meditation quality using HRV data from wearables, integrating statistical analysis and machine learning.
- Designed and coded an app to process and analyze biometric time-series data, utilizing proprietary algorithms for signal processing and data cleaning.
- Conducted experiments to refine evaluation methods, leveraging machine learning to enhance accuracy and improve meditation insights.

COMMUNITY

DATA SCIENCE ADVISOR, URBAN GREEN WORKS, MIAMI FL

2024-PRESENT

- Assisted in data collection and strategy for urban farming collective. Delivered lectures on Precision Agriculture.
